SOL-CARE™ Safety Needles

SOL-CARE™ Safety Needles help to prevent needlestick injuries. Every needle is equipped with a pivoting safety shield mechanism that locks in place to lower the risk of accidental injury after medication administration.

Features:

- Audible click indicates safety mechanism is secure and locked in place
- Protective arm does not obstruct visualization of injection site
- Bevel-up needle allows for low-angle injections
- Compatible with all standard Luer Lock and Luer Slip Tip syringes

SOL-M™ 3-Piece Syringes

SOL-M™ 3-Piece Syringes accurately measure the quantity of liquid medications and are available in a range of sizes and connection combinations to address a variety of clinical needs.

Features:

- High-transparency barrel to easily visualize contents
- Silicone lubrication ensures smooth plunger movement
- Plunger backstop that prevents accidental withdrawal of plunger from the barrel
- Large finger grips allow for easy, controlled injections
- Available in Luer Lock and Slip Tip options

*Low Dead Space (LDS) syringes are designed to minimize the amount of residual medication waste left within the syringe after medication has been delivered.

SOL-M™ Oral Dispensing Syringes

The SOL-M™ syringe has been specifically designed for use with oral medications, utilizing a special tip that will not accept Luer connectors, which lowers the risk of medication errors.

Features:

- 3-piece syringe with O-ring and gasket
- Large variety of sizes and colors
- Clear graduation markings for accurate medication delivery
- Optional amber barrel designed for light-sensitive drugs, in compliance with USP requirements

Protective tip cap for transportation with no spillage

User-friendly gradation with millimeter, teaspoons and drops

Available with amber barrel, designed for light-sensitive drugs or with a clear barrel

SOL-VET™ IV Catheters

SOL-VET™ Safety IV Catheters were designed for veterinarians to have a safety feature on the IV medication administration for animals.

- Features:**
- Protective casing ensures safety of catheter during transportation
 - Translucent catheter hub and chamber allows for easy visualization of blood flashback
 - Contains a hydrophobic membrane filter to prevent blood leakage during insertion
 - Filter cap can be removed to allow connection with a syringe to assist insertion

SOL-M™ Multi-Sample Needles

The SOL-M™ Multi-Sample Needle makes it possible to collect multiple samples with a single vein puncture.

Features:

- Marking on cap to indicate which direction provides bevel up orientation
- Low-angle bevel design allows easy penetration
- Color-coded caps and hubs allow easy identification of needle gauge size
- Compatible with all standard holders

SOL-M™ Multi-Sample Needles

Butterfly Needles

The SOL-VET™ Butterfly Needle features a removeable multi-sample luer adapter, making its application flexible across multiple uses.

The SOL-CARE™ Safety Blood Collection Needle is a safety-engineered device with a sliding safety shield that clicks when activated, telling you the needle is safely locked.

Features:

- Thin-walled needle minimizes patient discomfort
- Transparent design allows for clear visualization of blood flow
- Available as a safety engineered device (SOL-CARE™ Safety Blood Collection Needle)
- Available with removeable multi-sample luer adapter (SOL-VET™ Butterfly Needle)
- Available with or without pre-attached blood collection tube holder

Boot Covers

Boot covers that cover both the foot and lower leg. The leg portion is made from SMS and the foot portion is made from a heavyweight poly-coated SPP for additional water-resistance.

Features:

- SMS and polycoated SPP materials
- Elastic bands
- Lower leg coverage
